

Product Announcement: Viking Basic & Premium Speaker Microphones

Date of Issue: 12/16/15

FSB-1215-VIKING-03

EFJohnson is proud to announce the availability of new Viking Speaker Microphone products for the Viking radio product line. The microphones listed below are now available to order and will be available to ship January 2016.

The new Viking Speaker Microphones are engineered to be the best-in-class, offering loud and clear audio communications in a ruggedized hardware enclosure. Two versions will be available at launch, Premium and Basic. Both versions meet MIL-STD-810G specifications while the Premium version is also immersion rated (IP67).

The Premium speaker microphone has a PTT button, Emergency button, Hi/Lo button, and 3.5mm with an innovative system to exchange connector cables without changing the speaker microphone heads, the Basic speaker microphone only has a PTT button with a fixed cable connector. Cable lengths of 18", 24" and 30" are available for the products.
